1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1, 3, 5, 6-7, 9, 11-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is not clear what is meant by "essentially comprised of" and therefore the scope of the claim is unclear. Does this mean "consisting essentially of" or "comprising". For purposes of the art rejection that follows, the phrase will be interpreted as meaning "comprising".
3. Claims 1,3,5,-7, 9, 11-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 11-107,112 for the reasons set forth in paragraph 3 of the previous action.
4. Applicant's arguments filed 11/4/04 have been fully considered but they are not persuasive. Applicant argues that JP '112 is directed to large spacing where the spacing are in excess of 0.7 mil and further increase to a range of up to 1.3 mil. However, it is not clear that the values of 0.7-1.3 refer to the spacing in the JP reference. Additionally, even if this were the case, the claims still recite a spacing of 0.7 so the JP '112 reference would still meet the limitations. Finally, JP '112 teaches optimizing the weave density by making the spacing between the adjacent strands small so as to increase the accuracy and efficiency of circuit boards which employ the fiber glass cloths. Therefore, JP '112 teaches that the weave density is a result effective variable. Applicant has not shown any criticality for the claimed range. Therefore, the rejection is maintained.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
